Products/Services: Financial Guarantee Insurer

Assured Guaranty is the leading provider of financial guaranty insurance. It offers municipal bond insurance through two separate companies—Assured Guaranty Municipal (AGM) and Assured Guaranty Corp. (AGC). In addition to guaranteeing payment of principal and interest when due, AGM and AGC provide credit underwriting, negotiated terms, surveillance, and if necessary, remediation of the bonds they insure. These benefits create greater value and liquidity for investors, which allows issuers of insured bonds to lower their cost of funds, broaden distribution, and diversify funding sources.
