# ***The State and Local Government Performance Management Sourcebook***

Anne Spray Kinney and Michael J. Mucha, Editors

GFOA’s latest publication on performance management, *The State and Local Government Performance Management Sourcebook*, presents findings from over two years of research into identifying trends and leading practices among public-sector practitioners across the United States and Canada. The book explains essential components of a performance management system including **budgeting, citizen participation, evaluation, management, and performance management technology** and provides strategies to help governments use performance management as a tool to be more accountable, make better decisions, and ultimately improve services.

Chapters present the latest best practice information highlighting proven examples from practitioners on how to be successful in implementing, using, and sustaining a performance management system.

This first-of-its-kind publication documents over 600 state and local government examples of performance management and identifies the specific approaches that each uses to better meet its objectives, become accountable and transparent, and provide better results for the public.
